

Prescient Introduces the Lead Generator Program

Get paid for every lead...

...and earn even more when your lead turns into a sale!

We're Prescient Information Systems

Prescient has 15 years of experience providing document capture and management software, systems, support and services that produce proven operational and financial benefits. Our solutions and services enable organizations to reduce their operational cost and increase profits. We provide custom solutions from IBM, Kofax and our own PanOptic for SharePoint 2010. Our services include integration and custom development making great products perfect for our customers. We also provide automated invoice processing services and we're the nation's leader in converting documents archived on microfilm/fiche to digital format.

Whether our customers are transitioning their documents to digital format, switching imaging software or looking to completely outsource their document capture, scanning and integration process, we can help!

Our opportunity for growth has never been stronger. But we need help to capitalize on our growth potential.

Working with the best names in the business...

And we're looking for great leads!

To maximize our potential, we've developed a unique lead generation incentive program to extend the reach of our current sales force. You have the opportunity to earn attractive commissions for each qualified lead you provide. And the further the lead progresses in the sales cycle, the more you can earn! See the attached [Lead Generator Overview](#) to review your earning potential, our ongoing support and overall terms and conditions.

Want to get started?

To learn more about this exciting opportunity and how you can get started, contact Paul Samulowitz at paul@prescientinfo.com. Please provide your sales experience.

We look forward to hearing from you!
